### In depth

#### Strengthening of ADR mechanisms

EUROSociAL collaborates with the strengthening of Alternative Dispute Resolution (ADR) mechanisms in Latin America. Implementation of these methods and techniques of resolving disputes has brought about a break with the paradigm of formal

justice and, to contribute to their development in Nicaragua, the Programme has promoted training of operators in specific mediation techniques. In addition, the mere existence of ADR mechanisms does not guarantee that this option must be exhausted before taking disputes to the courts. To facilitate this, the Programme has collaborated with the Nicaraguan Judiciary to strengthen subjective aspects and raise social awareness of their benefits and effectiveness by raising awareness among civil servants responsible for their promotion and creation of a communication strategy.
